For purposes of this application, the term “securities” takes its definition from the Securities Act of 1933. Securities practice includes all activities involved with or related to both public offerings and private placements and indicates both exempt and non-exempt securities. Securities practice does not however generally include: **1.** assisting clients with basic small business formations in which all of the owners/investors are either actively involved in the operation of the business, or their relatives; **2.** drafting or amending the governing documents (e.g. partnership agreement, articles of incorporation, by-laws) for a new or existing business; or **3.** representing a client in the sale of a business in which securities are exchanged when: a. the sale is a negotiated transaction and the buyer conducts its own due diligence; and b. the purchase decision is expressly based on the buyer’s own due diligence investigation. The Company retains the sole discretion to review any business formation or sale of securities in which any Insured provides Legal Services to determine whether it shall be considered as a “securities practice.”
